PROFESSIONAL SUMMARY

Machine learning-focused B.Tech Computer Science student with hands-on experience across the end-to-end ML workflow: data preprocessing, feature engineering, model training, and evaluation. Proficient in Scikit-learn for building and validating classification and regression models, with a strong grounding in statistical EDA using Pandas, NumPy, Matplotlib, and Seaborn. Experienced translating ambiguous, real-world datasets into well-formulated modelling problems and communicating model performance to technical and non-technical audiences. Seeking a Data Science / Machine Learning role to apply predictive modelling and experimental rigor to production-scale problems.

TECHNICAL SKILLS

Languages: Python, SQL, Core Java (Basics)

Libraries/Frameworks: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

Tools/Platforms: Google Colab, MySQL, PostgreSQL, Power BI, Microsoft Excel

Concepts: Supervised Learning (Regression, Random Forest, Classification), Feature Engineering & Selection, Model Evaluation (Accuracy, Precision/Recall, Confusion Matrix), EDA, Statistical Analysis, Data Preprocessing, Predictive Modelling

WORK EXPERIENCE

Data Science & Machine Learning Intern | AICTE & UpSkill Campus *06/2026 – 07/2026*

- Built classification and regression ML models using real-world datasets.
- Applied data cleaning, feature engineering, and model evaluation techniques.
- Compared model performance to select reliable predictions.
- Presented results through charts and technical reports.

Data Science Intern | Internship Studio *12/2025 – 01/2026*

- Gained hands-on experience in data preprocessing, EDA and machine learning
- Built and evaluated prediction and classification model using Scikit-learn

TECHNICAL PROJECTS

Titanic Survival Prediction — Classification Model *| Python, Scikit-learn, Pandas, Matplotlib, Seaborn*

- Pre-processed Titanic data by handling missing values and encoding categorical features.
- Built and evaluated a Random Forest classification model with feature engineering.
- Analysed model performance using accuracy, confusion matrix, and visualizations.

EDUCATION

B.Tech , Computer Science Engineering | KMM Institute of Technology and Sciences, Tirupati *Expected 2027*

CERTIFICATIONS & ACHIEVEMENTS

- AICTE & UpSkill Campus — Data Science & Machine Learning Program Certificate
- Internship Studio — Data Science Internship Certificate
